Stitch Sampler Crochet Blanket – CY1031

Measurements

It is a great opportunity to practice some basic stitches as well as to learn some more advanced variations. A 15x15 cm square is worked in each stitch and these are then crocheted together and a border added. The finished dimensions are approximately 50x50cm

Materials

3 x 50g balls of Baby Pato DK shade 706 Mauve (colour A)

3 x 50g balls of Baby Pato DK shade 710 Spearmint (colour B)

Needles

Range of crochet hooks for squares: 4.5mm, 5.0mm 5.5mm and 6.0mm

4.5mm crochet hook for joining and border

Tension

It is important to work to the stated tension to ensure your squares are all the same size. If your squares are not 15 x 15 cm adjust to a different sized hook as required. However as long as the squares are all the same size the project will still be successful but the finished size will differ from that stated.

Joining the squares

The method described is to double crochet the squares together, first joining the rows horizontally along the top and bottom edges and then joining the sides vertically to make the square blanket.

You can use an alternative crochet join if you wish or if you prefer, sew the squares together in which case you could use a visible method such as oversewing or an invisible method such as mattress stitch.

To double crochet the squares together:

Using colour B and a 4.5mm hook commence joining the squares.

NB. Pin the squares together at each end and in the middle when needed and remove the pins as you work. Where the stitch count of the two squares differs you may need to skip some stitches of the square with more stitches. Make sure you do this evenly across the square to keep the join neat and secure.

Take squares 3 and 9 with wrong sides together and with right side of square 9 facing you. Join yarn B in to the first stitches at the right hand end of the work, picking up one strand from the first stitch of each square. Ch 1. Work a dc into the same place as the ch. Continue to work in dc,

picking up and working into one strand of the next stitch from each square as you work.

When you reach the end take squares 5 and 2 with wrong sides together and with right side of square 2 facing you. Pick up one strand of the first stitch of each square and make a dc. Continue to work in dc, picking up and working into one strand of the next stitch from each square as you work.

Repeat with squares 1 and 8 with wrong sides together and with right side of square 8 facing you. Fasten off and darn in ends.

Then working from right to left add on the final three squares. Pick up square 7 and place it behind square 3, wrong sides together. The right side of the work should be facing you. Join in colour B at right hand edge and ch 1. Dc in same place as ch, picking up one strand of each stitch from each square. Continue in same way to end of square.

Pick up square 4, placing it behind square 5 with wrong sides together. Join the squares by continuing in dc in the same way as before. Finally pick up square 6, placing it behind square 1 with wrong sides together. Join the squares by continuing in dc in the same way. Fasten off and darn in ends.

Now join the sides of the squares. Starting in the bottom right and continuing with colour B, turn the work so that you are joining the yarn at the right hand side of the blanket where the sides of squares 2 and 9 meet. Join squares in double crochet in the same way as before. Repeat to join the sides of the remaining squares, starting at the right hand side of squares 8 and 2. Fasten off and darn in ends.

Border

The border is made by first working two rounds of double crochet in colour B followed by a decorative round in colour A.

Join in colour B in any stitch on one side of the blanket. Ch 1 and dc in each st, working (dc, ch, dc) in each corner. Ss to join to first dc. Ch 1, and work a second round of dc in each stitch, working (dc, ch, dc) in each corner space from previous row. Ss to join to first dc. Fasten off.

Join in colour A in any corner. Ch 3, dc in corner, sk 1, *(dc, ch2 dc) in next st, sk 1 and repeat from * to end, ensuring that a (dc, ch2, dc) group is worked in each corner space. Ss to join to first ch and fasten off. Darn in remaining ends. Wash and allow to dry flat.
